

Veranda for the hotel and catering industry

V950 - Lugano

Make the most of the summer season with the unique V950-Lugano veranda: a high quality construction, a large sheltered terrace and a lot of luxurious expansion options!

Verano[®] your comfort is our concern

www.verano.eu

Unique veranda

The Lugano is unique due to the large range of expansion options. The steady construction and the firm aluminium profiles provide a solid and reliable veranda. The Lugano veranda is available up to a maximum width of 7 meter, allowing you to create a large sheltered terrace. The open construction gives you the freedom to easily extend and retract the fabric. In closed condition, the fabric is protected against dirt and weather influences. The sun protection fabric provides optimal protection against heat and harmful UV-radiation. The Lugano can also be provided with a special fabric that protects against light rain. The Lugano veranda is very suitable for expansion with several other Verano® products.

The ultimate experience

Optionally, you can provide the V950-Lugano with an integrated misting system with optional scent experience. This innovative and patented system makes it possible to spread a light mist on hot summer days. It is also possible to spread scents through the system. Think of the scent of coffee or hot sandwiches. Both options give your sales an extra boost!

Warranty

You purchase the V950-Lugano veranda to enjoy it for many years. The V950-Lugano is therefore made from the best materials and we give you a five year warranty. The warranty on the fabric depends on the type of fabric. The warranty is only given if all instructions for installation, use and maintenance are properly followed.

Standard

- Solid construction of aluminium profiles
- Minimal width: 1,50 meter, maximum width: 7 meter
- Minimal depth: 2 meter, maximum depth: 7 meter
- Electrical control
- Different fabrics

Luxurious expansion options

- Integrated misting system with optional scent experience.
- Integrated halogen or LED lighting.
- The V950-Lugano is suitable for expansion with the Verano® glass walls, the Verano® wind screens, the Verano® V599-Ritzscreen® and the Verano® wedge.
- Special fabric for protection against light rain.

The wide range of expansion options for the Lugano veranda give you the possibility to start early with the summer season, but also to enjoy it longer. Your competitive advantage in the outdoor season will significantly increase.
